MOBILE KITS

Goldtouch Goes Mobile

Goldtouch has partnered with CODi to offer the finest quality travel bags and wheeled cases to bundle with your Goldtouch Go! Travel Keyboard and Notebook Stand. Your Finance and IT departments will be thrilled that you no longer need to remove the notebook when going through TSA Security at the airport!

CT3 Tri-Pak Backpack

Designed to save time and eliminate hassle while navigating airport security. The CT3 Tri-Pak features two distinct compartments hinged by military grade ballistic nylon, allowing the case to lie flat while passing through airport x-ray machines, eliminating the need to remove the laptop from the case. Travelers can simply grab the case from the conveyor with one hand and go—the case secures itself with Velcro between the compartments. A front compartment contains a business organizer with pockets for pens, business cards and other essentials. Two zippered outside pockets are perfect for easy access. Two side mesh pockets are great for water bottles. Breathable padded shoulder straps and back make the case very comfortable to carry.

CT3 Duo Case

Designed to save time and eliminate hassle while navigating airport security. The lightweight, ultra-portable CT3 Duo features two distinct pockets hinged by military grade ballistic nylon, allowing the case to lie flat while passing through airport x-ray machines, which eliminates the need to remove the laptop from the case. Travelers can simply grab the case from the conveyor with one hand and go—the case secures itself with Velcro between the compartments.

CT3 Phantom Case

Designed to save time and eliminate hassle while navigating airport security. The CT3 features two distinct pockets hinged by military grade ballistic, allowing the case to lay flat while passing through airport x-ray machines, which eliminates the need to remove the laptop from the case. Travelers can simply grab the case from the conveyor with one hand and go—the case secures itself with Velcro between the compartments.

Mobile Lite Wheeled Case

The Mobile Lite, our most popular wheeled case, remains one of the smallest & lightest wheeled business cases available at 7 lbs. 5 oz. Accommodating even 15.4" widescreen notebooks, its sleek design will fit in the overhead or at your feet in a small regional jet. The front compartment contains CODi's classic business organizer, and the over-sized accessory compartment has 4 specific elasticized pockets. On either side of the case exterior are twin zippered accessory/water bottle pockets. A pyramid shaped pocket on the front keeps cell-phones, PDA's, or boarding passes within easy reach. For maximum transportability, the Mobile Lite features a telescoping twin tube handle as well as a "grab-handle" molded into the bottom of the case to assist in ingress/egress, a comfortable top carry handle and a quick-slip wheelie strap on the rear of the case to secure the case on top of a carry-on. Wheels positioned at the corners provide uncompromising stability, and true ballistic nylon construction ensures years of use.

Meets all International Carry-On Guidelines

Mobile Max Wheeled Case

Weighing only 8 pounds, the Mobile Max is our best and most versatile wheeled case. Designed to accommodate all traditional and workstation notebooks up to 17", yet fits in the overhead or at your feet in most regional airplanes. A telescoping twin-tube handle promotes stability and easy towing. A removable file system lets you organize the case for maximum efficiency in addition to a padded, removable computer sleeve. The rear compartment can be configured for files or an over-night change of clothing. 4 elastic accessory pockets & 2 extra-large pockets can even accommodate shoes. The front compartment contains CODi's optimum business organizer, and the additional over-sized accessory compartment has 2 large & 2 medium elasticized pockets to secure various peripherals. A pyramid shaped pocket on the front keeps cell-phones or PDA's along with a separate zippered pocket designed to secure travel documents and boarding passes. A "grab-handle" is molded into the bottom of the case to assist in ingress/egress of overhead compartments or the trunk of a car in combination with the padded top carry handle. Wheels positioned at the corners provide stability, and true ballistic nylon construction provides years of dependable use.

Meets all International Carry-On Guidelines

Handle length is 39" from floor to top of handle
